SAN LUIS OBISPO COUNTY

The Birth of Silicon Valley, gestated in SLO County

Come and see our latest exhibit, The Varian Brothers. Sigurd and Russel Varian were raised in Halcyon before going on to invent the Klystron tube, a necessary prerequisite for such technologies as radar, satellite communication, medical scanners, guitar amps, and much more. Without the Klystron - without the Varians - the technology that makes up our modern world would not be possible.

Learn about Sig and Russ, from their early days in San Luis Obispo County to their success in Silicon Valley.

Has it been a while since you visited the museum? The History Center Museum is housed in the historic Carnegie Library building across the street from the Mission and is open from 11 to 5 every day except Tuesday. Admission is free, donations accepted. Why
